Tacky mats for contamination control

- A hygienic pad of peel-off adhesive coated, disposable sheets manufactured from an anti-microbial agent to protect against bacteria, mould and mildew.
- The 'tacky' sheets capture dirt and dust from footwear and wheeled equipment for contamination control.
- When the top sheet becomes soiled, simply peel off to reveal a clean layer.
- Adhesive backed pads stick directly to the floor surface.
- Ideal for hospitals, clean rooms, general industrial and food contact applications.
